SERVICE BULLETIN

GAME: ASTRON BELT

SUBJECT: SELF DIAGNOSTIC TEST

- 1. The diagnostic test can be advanced to the next test by pressing the start button for a reasonable period of time.
- When you advance from the input test (switch test) to the next test the start button must be held in for a longer period.
- 3. After the last diagnostic test, the game will return to the attract mode automatically in approximately 30 seconds.
